A man with a beard and short hair, wearing a grey t-shirt with a logo, is focused on his work in a warehouse. He is leaning over a large metal grate with a grid of square holes. He is using a tool to work on a piece of material on the grate. The background shows shelves with boxes and various supplies, including a sign that says "ULINE T-SHIRT RAGS". The lighting is bright, and the overall atmosphere is one of a busy industrial environment.

simplifying a process
made difficult

At FabACab, we lead the industry in designing quality, modern elevator interiors by leveraging advanced, innovative technology and top-tier materials.

Panel Surface Material Options

LAMINATE

As our most popular surface choice, laminate offers a durable solution with numerous options all for an affordable price. This isn't your grandmother's laminate. With more textures and designs than ever before, updating never looked so good.

SUBLIMATION

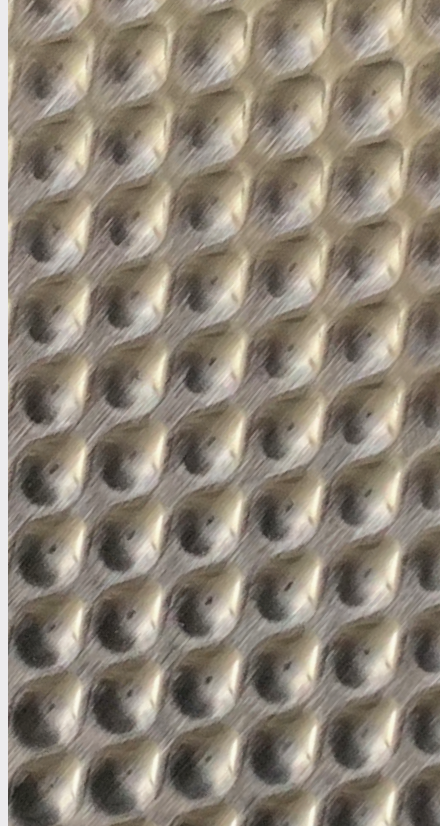

Complete custom options such as logos and photos are now within reach with sublimation technology. This unique printing process embeds the image directly onto a metal surface, enhancing the sustainability.

GLASS

Stand out with the showstopper of all panel surfaces—glass. With its high-end and sophisticated glossy sheen, glass encapsulates the image protecting and enhancing the appeal of your custom design.

METAL

High traffic spaces are no match for the metal panel surface—the most durable, clean, and timeless option available. With a variety of colors and textures, modernizing your elevator interior was never easier.

| | CUSTOMIZATION | PRICE | LEAD TIME | DURABILITY |

crafted to endure:
uncompromising quality

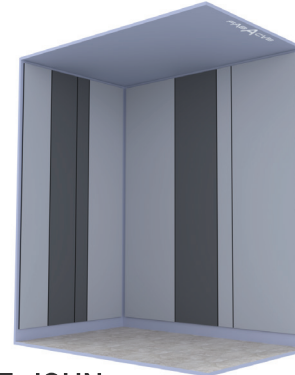

Panel Configurations

Our interior cab systems come in three distinct applications: vertical, horizontal, hybrid. Vertical systems maximize height and are ideal for buildings with high ceilings, while horizontal systems emphasize width and create a spacious feel in tighter spaces. Hybrid systems blend the advantages of both, providing flexibility for unique architectural needs. We offer a wide variety of options to fit any space, size, and style, ensuring that every installation meets the specific aesthetic and functional requirements you have.

Vertical Systems

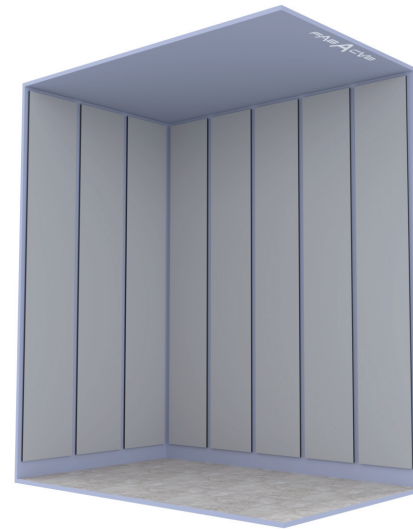

Vertical panel systems are designed to elevate the aesthetic and functionality of cab interiors by creating an illusion of heightened space. Our innovative approach integrates a variety of materials, colors, and accessories to achieve a custom look, improving the overall attractiveness and flexibility of the panel design. Whether for practical functionality or visual improvement, our vertical panel systems offer a seamless blend of form and function tailored to meet diverse cab design needs.

NASSAU

ST. JOHN

TRINIDAD

Our Nassau model, the most popular elevator interior, combines elegance and versatility with a variety of color options. It stands out for its superior appearance and affordability, making it the best economical choice for sophisticated spaces.

The St. John cab introduces a captivating visual dynamic, adding layers of interest and sophistication to any cab interior. By seamlessly integrating diverse materials and a range of customizable options, it optimizes functionality and design.

| INSTALL EASE | INSTALL TIME | PRICING |
|--------------|--------------|---------|

Trinidad cabs are renowned for their sleek, modern lines that effortlessly enhance any space. This aesthetic is particularly advantageous for shorter cabs, as it greatly amplifies the perception of vertical space, creating a more spacious and inviting environment.

The Trinidad System comes in a variety of colors and materials, with various custom solution add-ons as well. As our latest model to join the vertical fleet, it stands out as timeless in design and simple to install.

We were extremely pleased with the finish product and most importantly, the field team enjoyed installing the cab efficiently and our customer was very happy! We will definitely look forward to using you guys again in the future.

- Schindler, SC

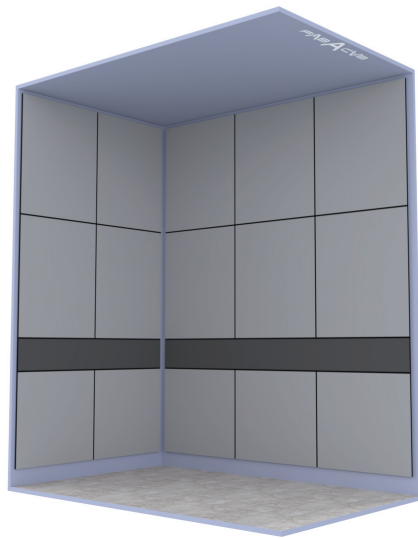

Laminate Panel Surface

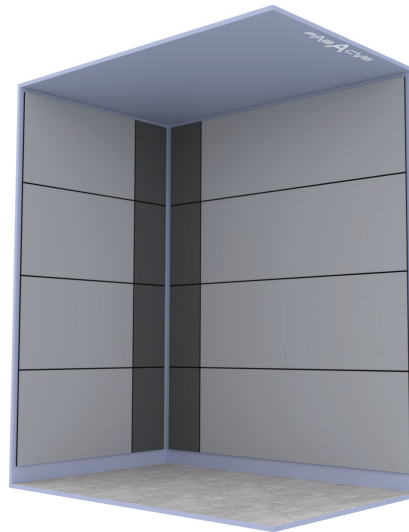

Horizontal Systems

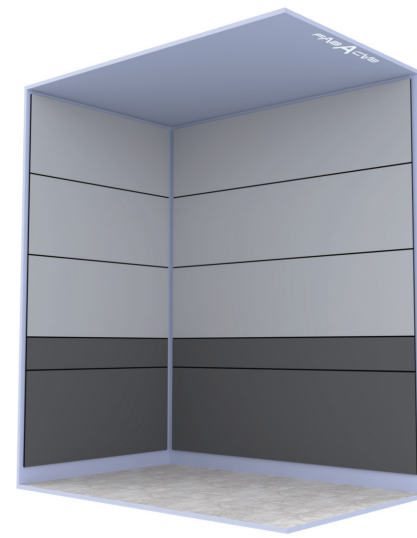

Our most extensive line of panel systems, the Horizontal Systems, offers a wide range of styles to elongate any cab interior space. By combining diverse materials, colors, and accessories to create custom designs, each panel configuration enhances the versatility and appeal of the cab. Our horizontal panel systems seamlessly blend form and function, catering to a wide range of cab design requirements, whether for utility or aesthetic purposes.

Willemstad, Santiago, Santo Cruz

WILLEMSTAD

Modern with clean lines, the Willemstad cab features an engaging visual dynamic that enhances the elegance and intrigue of any cab interior. By offering a variety of materials and custom options, it maximizes both functionality and design.

SANTIAGO

Contemporary and sleek, the Santiago cab presents a captivating visual appeal that elevates the interest of any cab interior. With a range of materials and customization options available, it optimizes both practicality and aesthetics.

SANTA CRUZ

The Santa Cruz cab showcases a balanced visual aesthetic, adding depth and sophistication to any cab interior. It seamlessly integrates a variety of materials and customizable elements, optimizing both functionality and style.

Bridgetown, La Vega, Cooperstown

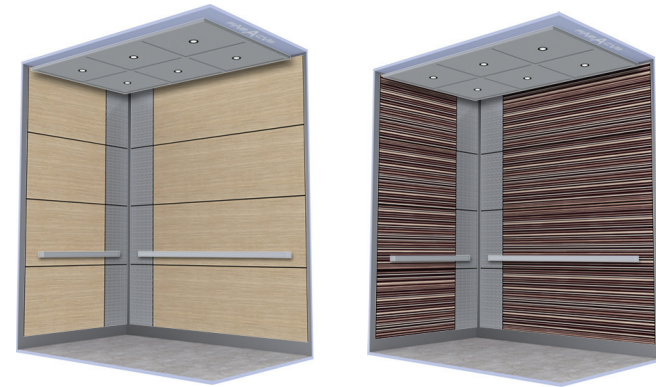

BRIDGETOWN

The Bridgetown cab presents an intriguing visual dynamic that enriches the sophistication and appeal of any cab interior. By skillfully blending a variety of materials and offering numerous customizable options, it enhances both design and function.

LA VEGA

The La Vega cab elevates any cab space by its modern esthetic that includes space heightening metal corner accents. Elongate your cab and create a timeless space with various stylized accessories and materials options.

COOPERSTOWN

Clean and contemporary, the Cooperstown cab captures the long lines with an added metal band across the top. With an intriguing top metal accent, this cab enhances the ride experience in any type of building.

Santo Domingo, Havana

SANTO DOMINGO

A top seller, the Santo Domingo, is the perfect blend of sophistication with modern style. With its linear panel pattern, this cab has a very spacious feel with its clean lines.

HAVANA

The Havana cab is in a league of its own with its simple and striking linear pattern. With a variety of materials and accessories to choose from, this cab uplifts any cab interior.

Glass Panel Surface - Basketball Hall of Fame, New Castle, IN

“

The customers love the cab interiors, and the mechanics told us they loved the ease of the horizontal panel installation!

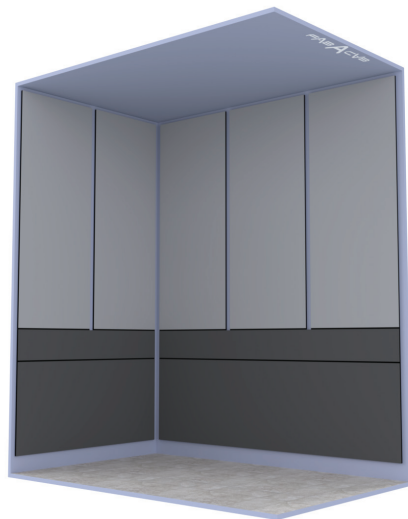

- Otis, CO

”

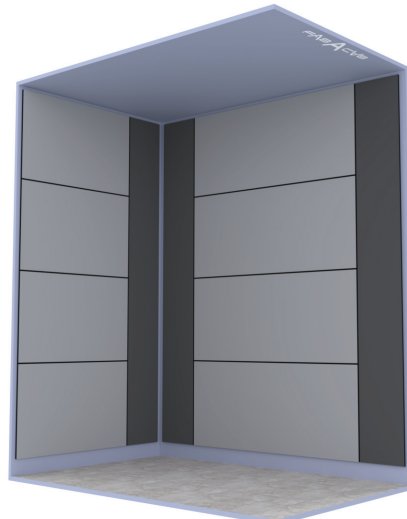

Hybrid Systems

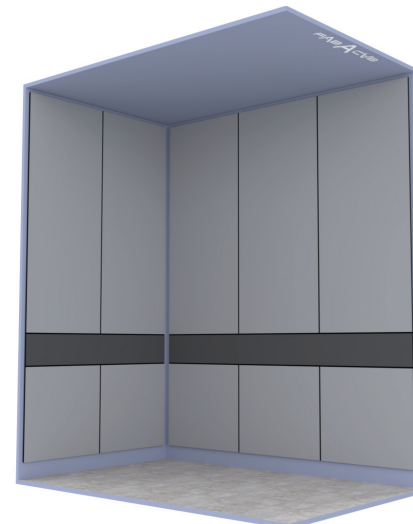

Hybrid panel systems, combining both vertical and horizontal configurations, are designed for optimal aesthetic interest, giving the illusion of taller heights and lengthened widths. This dynamic and functional approach offers an endless opportunity of custom-looking configurations by the multitude of material, color, and accessory options available to choose from. The sky is the limit with Hybrid Systems, the best of both worlds.

GEORGETOWN

ANDROS

KINGSTON

Our Georgetown model is the go-to solution for high-traffic spaces, where stainless steel lower panels are recommended to combat everyday wear and tear. Alongside practicality, the vertical panels add style, sophistication, and polish.

Andros

The Andros features a sleek combination of clean vertical and horizontal lines, offering a modern and updated aesthetic. As one of our most popular styles, this striking cab is designed to impress with its wide range of customizable options.

With a strong vertical focus, the Kingston is a show stopper with its professional and dynamic look and feel. This cab is specifically advantageous in smaller spaces where the perception of height is created.

This model is one of our most sought after designs with its integrated shadow lines, standard handrail panel, and clean vertical panels. It's the perfect blend of versatility and form, enhancing any and all elevator interior spaces.

Sublimation Panel Surface

Whatever you imagine, we can bring it to life. Our seasoned craftsmen excel in tailor-made designs. Get in touch with us to kick off your custom elevator interior project specific to your needs and vision!

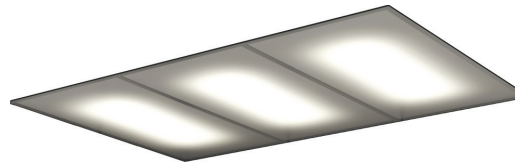

“Production, shipping, QC, everyone did a great job. Mechanics loved the crating, how well the panels flowed, and the Chic Fil A that I provided.”

- Pinnacle/A1 Elevator, LA

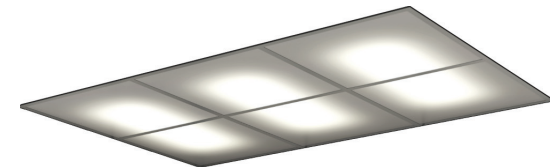

T-Frame Ceiling Systems

Constructed much like a drop ceiling, the T-frame Ceiling System is an application frequently seen in commercial buildings. The metal frame and grid system with drop-in panels provide a quality look at an economical price. We offer traditional translucent drop-in panels or modern metal drop-in panels to compliment any style.

CURTAIN BLUFF

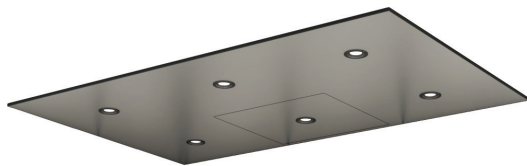

SAGESSE

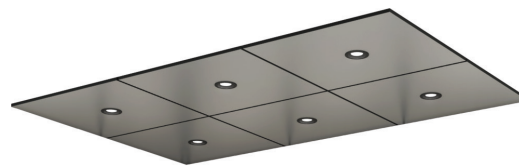

ANEGADA

Island Ceiling Systems

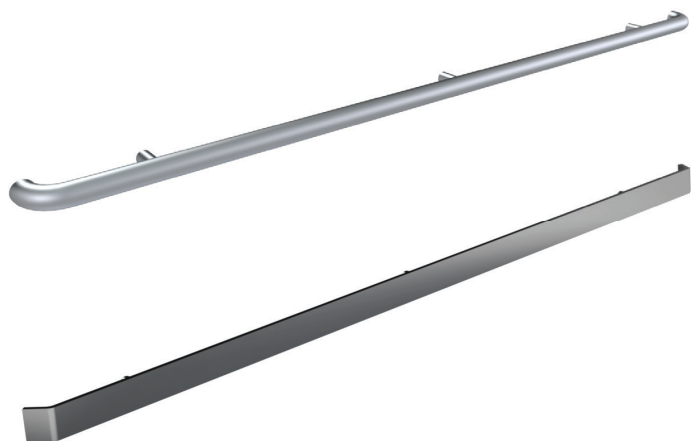

CHASTANET

MANZANILLA

The Island Ceilings are constructed to give the aesthetic of a frameless, floating island look, conveying a superior design appeal. The concealed, aluminum hat channel attaches to an aluminum sheet, giving this ceiling a solid, yet, lightweight foundation. They come standard with Man-D-Tec's premium, low voltage LED down lights, ready to mount.

Built to last, FabACab's Rail Systems come in a variety of shapes, sizes and finishes specific to your project. Our patented Handrail System is constructed to last the lifetime of the elevator interior and ensures the rail will not come loose. Our pre-installed Handrail System comes on an 8" cladded panel allowing for quicker installation.

Accessories

PALMER PADS

W.E. Palmer offers high quality padding solutions, is an industry leader, and is FabACab's standard protective padding supplier.

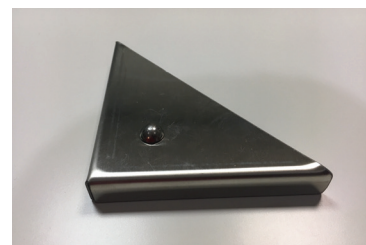

MAN-D-TEC LIGHTING

Since 1987, Man-D-Tec has been leading the industry in elevator lighting. FabACab is proud to offer this premium lighting collection as our standard lighting solution.

PICTURE FRAMES

Picture framed panels provide a sophistication to your project while also protecting the edges of your panels.

CORNER GUARDS

Corner guards add character to your project while also protecting the corners of your panels.

COLOR MATCH EDGE BANDING

Beyond our standard black edge banding, the color match edge banding option allows a cohesive and custom look to flow from panel to panel.
